“To be the preferred supplier of reliable, efficient and cost-effective Aids to Navigation, for the benefit of industry authorities and the safety of all mariners.”

MOBILIS

Vega

CARLIER  
CHAINES SAS FRANCE

# leading supplier of aids to navigation

Founded in 1994, Hydrosphere is firmly established as the UK and Ireland's leading supplier of aids to navigation, providing high quality, reliable and cost-effective solutions to the marine industry.

We represent world-leading innovators in the production of navigation lights, navigation buoys, data buoy platforms, moorings and mooring buoys. In addition, we manufacture and design ancillary equipment including power supplies, monitoring and control systems, and masts, and back this up with a full installation and maintenance service.

## our products:

- » AIS type 1 and type 3 transponders
- » Bespoke products
- » Chains and shackles
- » Control systems
- » Data buoy platforms
- » Fog signals and visibility detectors
- » GPS synchronisation of lights and signals
- » Installation, maintenance, repair & removal
- » Mains power supplies with or without backup
- » Mooring buoys
- » Moorings

- » Obstruction lights
- » Racons
- » Radar target enhancers
- » Remote monitoring systems by GSM or satellite
- » Signage
- » Sonar transponders
- » Standalone solar power supplies with or without backup
- » System design, configuration & documentation

## our partners

### MOBILIS

#### Mobilis

For over 20 years Mobilis has been supplying the marine industry with robust, IALA compliant and cost-effective navigation buoys, mooring buoys and zone marking buoys. Leading the field, Mobilis products are renowned for their longevity, strength and adaptability, and are constructed from environmentally friendly materials.

### Vega Industries Ltd

Vega provides an extensive range of high-performance, self contained lights and LED beacons with up to 30NM range, as well as precision sector and PEL lights, LED leading lights, and rotating beacons for lighthouses.

### Carlier Chaines SAS

Carlier Chaines SAS has been manufacturing quality chains and equipment for marine, offshore, lifting and industrial applications since 1930. Every chain link is individually tested and, where required, certified by Lloyds or Bureaux Veritas.

# trusted by the industry

Our products and services are used by all of the UK Lighthouse Authorities and most major ports and harbours across the UK and Ireland, as well as offshore oil and gas companies, offshore renewable energy sites, the MOD, marinas, sailing clubs, aquaculture sites, research institutes and universities, and yacht clubs.

All the products that we distribute are fully compliant with IALA and GLA guidelines and recommendations.

## dedicated technical sales team

Our Technical Sales team covers the whole of the UK and Ireland with specific Sales Managers dedicated to particular areas of the country. We are always happy to make a visit to your site to get a better understanding of your requirements and to offer advice on the most cost-effective and efficient solutions.

## in-house design & engineering

We have an in-house team of skilled engineers who can design and build systems for any bespoke application. We are also happy to carry out full installation and maintenance services on all of our products and systems.

## large stock holding

Our large stock holding of products at our warehouse in Hampshire enables us to respond immediately to your emergency or last-minute orders. This is backed up with regular shipments from all of our overseas manufacturers, meaning we can typically ship products within 24 hours of your order being placed.

## commitment to quality

We, along with our partners, are dedicated to ensuring that all our products and services fully meet the requirements of both our customers and the marine industry authorities. All design, supply, installation and maintenance activities are completed under our ISO 9001:2008 certification. We work together with all of our customers to maintain this policy and continually strive to enhance the products and services we offer.
