

ODSL 200

Omnidirectional LED sector light

ODSL 200 omnidirectional sector light is an innovative, compact new sector light with accurate sector borders. This light is equipped with a replaceable LED optical unit. The range of the light, depending on colour and flash character, is between 6 and 10 NM ($T_c = 0,74$).

- Sectors are fully verified at Sabik's photometric range prior to delivery
- Field installation is easy thanks to a rotation mechanism in the base
- Precision alignment, at site, can be done with a gun sight (has to be ordered separately)
- After installation sector alignments remain unchanged even if the LED optical unit is replaced
- Light can be delivered with an external weather cover
- The standard sector light is available as a 3, 6 or 12 layer model
- Small area of uncertainty between the sectors, typically less than $0,5^\circ$
- Integrated flasher with daylight switch and a 16 ampere solar panel charger
- Programmable with Sabik standard IR programming devices
- This light can be equipped with remote monitoring, synchronization and optical feedback
- Patented omni-directional LED sector light technology
- Optionally available with Bluetooth® programming
